Dear Pink,

Wednesday, February 7th, is fine for me and I will make my plans to be with you at that time. I think, however, I'd better plan to be there only for the talk and the half hour question period and ask you to excuse me from the discussion.

If you wish to record the talk I have no objection, but think it would be best if we consider the lecture as "Top Secret" since this would permit me greater latitude in the discussion of my subject.

Sincerely,

h/ "Beetle"

Commandant, The National War College
